Sixty-Fourth Year | Canyon, Texas | Wednesday, July 15, 1959 | Number 14

Around - - - - The Town

By DOROTHY HALEY

Call the news office at OL5-2141 when you have out of town company or when you have visited out of town. We try to keep up with the locals, but often we do not hear about the happenings closest to your hearts—so help us keep the public informed as to "who went where".

★

Mr. and Mrs. Carl Prichard returned to Dallas Wednesday after spending several days with his parents, Mr. and Mrs. E. W. Prichard.

★

Visitors in the home of Dr. and Mrs. A. K. Knott have been her mother, Mrs. Elizabeth James who returned to her home in Boulder Colo. Tuesday, and her aunt, Mrs. Alma Lynn of Hickman, Calif.

★

Mrs. Eugene Richles and two sons of New York City have been visiting her father, J. R. Sharp, for the past two weeks. Mr. Richles joined his family here Thursday night. Mrs. Richles is the former Mary Catherine Sharp.

★

Mrs. Ethel Shaw left Saturday morning for Albuquerque, N. M., to attend the announcement tea of her granddaughter, Gayle Shaw, to George Grayson Westerman of Los Altos, Calif. Gayle is the daughter of Mr. and Mrs. Travis Shaw. After the tea, Mrs. Shaw will go to her cabin at Ward, Colo. to spend a few weeks and will return to Albuquerque for the wedding on August 30.

★

Joe A. Gibson, Supt. of the Canyon Schools, attended a school administrative workshop in Austin last week.

★

Mrs. T. J. Rampy of Junction is visiting her daughter, Mrs. J. E. Miller. Charles Miller of Ft. Bliss and James Miller of Lubbock visited their parents, Mr. and Mrs. J. E. Miller and Mrs. Rampy over the fourth of July weekend.

★

Bob Winn, J. W. Sims and Dwayne Pettit left Sunday on a weeks tour of the state. They plan to visit the Big Bend country, San Antonio, Brownsville, Houston, Galveston, and Austin.

★

Mr. and Mrs. Frank Pinckert, Mr. and Mrs. Chub Pinckert and Donny of Hereford and Mr. and Mrs. Richard Pinckert and children of San Bernardino, Calif. visited in the Buddy Taylor home Sunday.

★

Mr. and Mrs. Russ Richard Stamper have been visiting his mother, Mrs. Ardis Stamper. The Stampers have just returned from Italy where they have been living for the past year.

★

Mrs. Lena Nilsen of Sacramento, Calif., left Sunday night for Illinois to visit in the home of her daughter, after visiting her sisters, Mrs. C. M. Dowlen and Mrs. S. L. Robinson.

★

Mr. and Mrs. A. W. Mack left last week to spend the months of July and August in Scotland with Mr. Mack's sister, Miss Jessie Mack.

★

Dr. and Mrs. Emmitt D. Smith are attending an educational conference in Austin this week.

★

Dr. and Mrs. J. B. Roberts and Judy left this week for a visit with his mother and other relatives. in Tennessee.

★

Mrs. Thomas J. Carnes and four children returned to their home in Calexico, Calif. last week after visiting with her mother, Mrs. Hattie Brasuel, for ten days.

★

John and Susan Brantley left Monday morning by train to visit in the home of their aunt, Mrs. Harold Long, in Denver. Their parents, Mr. and Mrs. Royal Brantley, and the two younger children will leave Saturday to join them.

★

County agent and Mrs. Martin Gossett of Dumas, Mr. and Mrs. Ray Gossett and Kenneth of Kellerville, and Mr. and Mrs. Lester Shirley and son of Stinnett were weekend guests in the home of Mr. and Mrs. L. E. Gum.

★

Mr. and Mrs. Kenneth Black and children of Roswell, N. Mex. are visiting in the home of his parents, Mr. and Mrs. Joe H. Black.

★

Mrs. Elton Cox and daughter visited with her parents in Wharton while Mr. Cox was attending camp. They returned to Canyon over the weekend.

★

The Jack Barnard family is vacationing at their cabin in Colorado this week.

★

Mike Wilson, son of Mr. and Mrs.

Con't on Back Page, Section 1

Hail Storm Brings Heavy Damage

A hail storm moved across Canyon Friday night, causing extensive damage to roofs. From 1.05 to 1.68 inches of rain accompanied the storm.

Damage was heaviest in the area east from the square, with damage estimates ranging from 60 to 75 per cent in that area. The west part of town was not too badly damaged, according to insurance agents.

Heaviest damage was to flat and composition roofs. Agents estimated the damage at $100,000.

Insurance adjusters will continue to work through next week and perhaps to the end of the month.

Rain measurements were 1.05 in the west end of town and 1.68 in the east.

The storm covered an area from Buffalo Lake northeastward to a point one mile east of Canyon. Farmers in the Buffalo Lake area reported heavy damage, with rain measuring up to 5 inches.

Monday night's rain brought .49. Another .15 fell last night.

Water Usage in Million Gallons

Canyon citizens used an average of 1,145,000 gallons of water a day during the month of June. Total water pumped for the month was 34,360,000 gallons.

The average is down some from the daily average last year which was 1,254,279. Citizens used 37,628,900 gallons during the month of June, 1958.

Rainfall accounted for the difference. In June Canyon received a total of 4.20 inches compared with .60 last year.

Eagles To Face Slaton Sept. 4

The football schedule for the Canyon Eagles has been announced by head coach Bill Davis.

The Eagles, who had a 6-4 record last year, will face the same opponents this year. Canyon tied with Dimmit for the co-championship of District 1 AA. Both had a 3-1 record in district play, but Dimmitt went to the bi-district play-offs since the Bobcats defeated the Eagles.

Workouts begin Aug. 17, with the first game Sept. 4 against Slaton.

The Eagles lost 12 men through graduation. Among the returning lettermen will be Jerry Richardson, All-District quarterback, and Tommy Henderson, All-District linebacker.

This fall's schedule is:

Date	Opponent	Site	1958 score
Sept. 4	Slaton	H	20-6
Sept. 11	Hereford	T	17-8
Sept. 18	Perryton	T	6-32
Sept. 25	Dumas	H	0-26
Oct. 2	Wellington	H	27-6
Oct. 10	Phillips	T	0-15
Oct. 16	*Dalhart	H	21-18
Oct. 23	Open		
Oct. 30	*Tulia	T	34-20
Nov. 6	*Friona	T	34-6
Nov. 13	*Dimmitt	H	6-14

*District game

It's Not Our Fault

Blame C. R. Hillier, the linotype operator, if you don't get your paper on time. He had an emergency appendectomy Tuesday night.

Three Attend State Future Farmers Meet

Attending the Texas Future Farmers of America convention in Austin this week are Dale Henry, official delegate for the Canyon chapter, Edward Dwyer, vocational agriculture instructor, and Joyce Ricketts, Area I sweetheart.

Dale, son of Mr. and Mrs. Crews Henry, will receive his state Lone Star Farmer Degree at the convention which opened this morning. He had received his district and area Lone Star Farmer degrees and was named third ranking farmer for Area I with a $25 award at the area meeting in May. He was graduated from Canyon High School in May.

Miss Ricketts, accompanied to Austin by her parents, Mr. and Mrs. B. E. Ricketts, will compete for the title of State Sweetheart Friday night. She will be one of ten girls in the state seeking the title. A graduate of Canyon High School in May, she was a member of the Future Homemakers of America three years.

The three day convention will include talks by W. W. Jackson, chairman of the State Board of Education; Tom Miller, mayor of Austin; J. W. Edgar, Commissioner of Education; and Adin Hester, National FFA president from Oregon.

State president Bill McDowell of Whitewright will preside over the convention, assisted by nine vice presidents representing all areas of the state. Delegates will name outstanding members, confer advanced degrees, present scholarships and awards, and elect a new president as a part of the business of the convention.

Water Tourney At Buffalo Lake

The seventh Annual Rickshaw Water Ski Tournament will be held at Buffalo Lake this weekend sponsored by the Panhandle Boat and Ski Club of Amarillo. About seventy water skiers from six states and one from Norway are expected for the event.

Activities will begin with registration Saturday morning at seven-thirty. Competitive events are scheduled to begin at nine and continue through Sunday afternoon. Slated are slaloms, tricks, slalom run-offs, and jumping with divisions for junior girls, junior boys, girls, women's, men's and veterans.

Mr. and Mrs. Kenneth Clark, Charlotte, and Judy of Canyon will be entering the tournament. All of the Clarks won in the tournament in Lubbock last week when Charlotte won three first places in the events.

Safflower Field Day Is Saturday

A safflower field day will be held at 2 p.m. Saturday at the Bill Gentry farm, 16 miles northeast of Hereford, according to Charlie Corn, field manager for Farmers Oil Seed Mills, Inc.

The 70-acre experimental tract shows safflower at various planting dates and blooming stages under normal dryland conditions and varying irrigation practices.

Corn feels that safflower has a place as a rotation crop in the area farm economy and is a crop which can be profitably grown. He thinks this year's demonstration plots show real promise that safflower is adapted to this area.

Plains farmers growing safflower this year are guaranteed a market price of $62 per ton, Corn said.

The Gentry farm is 6 miles north of Dawn on Farm-To-Market road 809 and 4 miles west on Farm-To Market road 1062.

Reading Clinic Begins Monday

A reading clinic for pupils from the primary grades through high school began Monday on the campus of West Texas State College and will continue through Aug. 21.

Dr. Ruth Lowes, professor of education, is directing the clinic.

Mrs. Normand Madore of the Ferndale, Mich., schools is supervising the work of the younger pupils, and Mrs. Allegra Bush of Amarillo will work with the older group.

Mrs. Madore is on leave of absence from the WT education department and is continuing work on his Ph. D. degree at Wayne University.

Commission Turns Down Paving Request; Appoints Service Officer

Gordon Fielden, Amarillo realtor, Monday requested the Randall County Commissioners Court to reconsider its decision not to participate on a 50-50 basis in paving streets in Western Manors development in northern Randall County.

The county commissioners again decided not to participate in the paving program.

Fielden's protest was based on what he called "commitments" by C. Y. Johnson, precinct 4 commissioner. He said he and Johnson had discussed the subject many times and there had never been an indication on Johnson's part that the county would not participate on a 50-50 basis.

"If talking about it made the agreement, we've talked about it enough. But if I felt there had been any agreement, I wouldn't be backing down now," said Johnson.

Fielden said he had gone as far as he could with the development until the paving is put down and that he had already borrowed the money to match the county's funds in the paving project. He said he had proceeded on the feeling that the county would participate in the paving project.

"I feel that I am entitled to it," Fielden said.

Glenn Dowlen, precinct 3 commissioner, didn't see how the county could participate inside a privately owned tract, even though the streets were dedicated county roads. Johnson and Clarence Beckman, precinct 2 commissioner, agreed that the county must aid all developers if it aided one.

The county has already paved a road on the west and south of the development.

In other action, the commissioners appointed Roland Black assistant veterans service officer and accepted reports from county officials.

Weed Ordinance Adopted By City

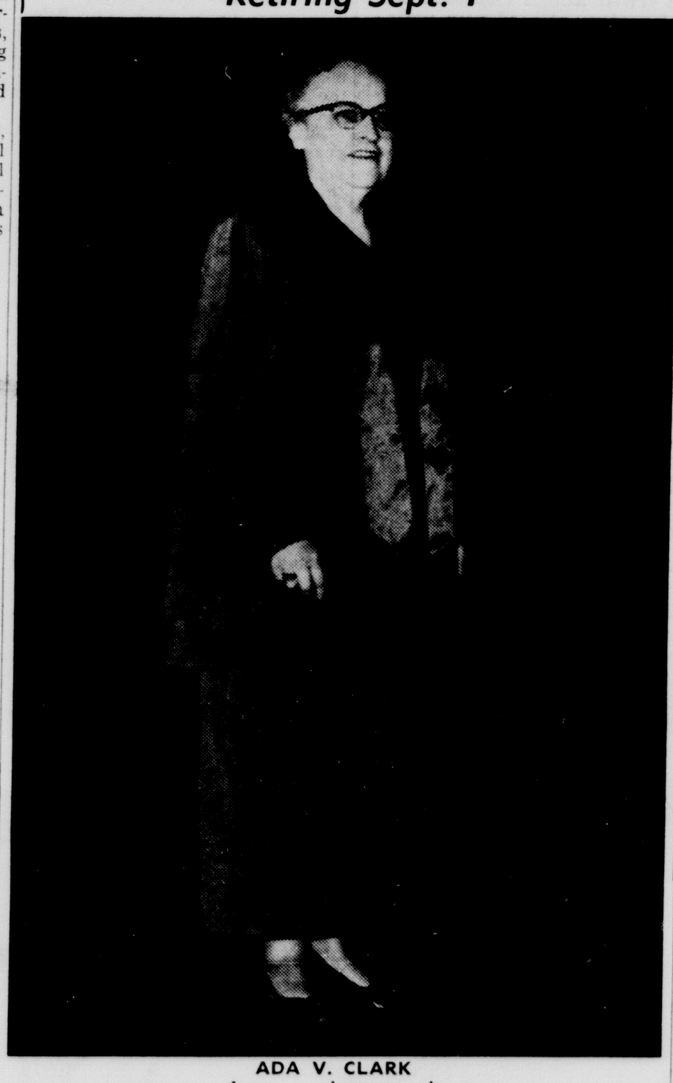
The City Commission adopted a weed ordinance Thursday night at their meeting which will provide the city with the authority to clean up the weeds and rubbish in vacant lots where property owners fail to do so.

It authorizes the city to assess property owners for expense incurred in cleaning lots or property of debris and weeds as in accordance with Section E, Article III of the City Charter which reads:

"The City Commission shall have the power . . . . to require the owner of any lot or lots within such city or town to keep the same free from weeds, rubbish, brush and any and all other objectionable, unsightly or unsanitary matter of whatever nature, and if such owner fails or refuses to do so, within ten days after notice in writing . . . . . such city or town may do such work and may charge the expenses incurred in doing so to the owner of such property".

Property owners are requested to clean their lots of debris and weeds even before the ordinance goes into effect. Heavy rains have caused an influx of mosquitoes which will rapidly become a health menace.

Retiring Sept. 1



ADA V. CLARK

Miss Clark Resigns After 36 Years As Teacher in Canyon School System

For the first time in 36 years, Ada V. Clark won't be on the faculty when Canyon schools open this September.

Miss Clark, who has taught in Canyon since 1923, has resigned effective Sept. 1. She has taught longer in Canyon than any other public school teacher.

Her reason for retiring—"I think I've taught long enough." Though she is not at retirement age, she has no plans to teach at other schools—she just wants a change. As a choral director, and music teacher, she has taught an average of 200 students a day.

"I've just always gone to school," Miss Clark said.

★

After she received her B.S. degree from West Texas State College in August, 1923, she joined the music department faculty that fall. Her job was working with student teachers and demonstrating methods of teaching by working with children at the West Texas Demonstration School.

The late Wallace R. Clark, then head of the music department of WT, believed that college students could not be taught to teach children without having contact with children. From the time Miss Clark joined the faculty until she withdrew from teaching college classes four years ago, no one else had taught a course in how to teach music in the first six grades.

Miss Clark and the music department head are no relation.

By going summers, Miss Clark got her M.A. degree from George Peabody College at Nashville, Peabody College in Nashville, Tenn. She also studied at the Eastman School of Music at Rochester, N. Y., a college that is very selective in the students it takes.

★

The choral director for Canyon public schools has also studied at the Fred Waring Workshop at Boulder, Colo., the Christiansen workshop at Chicago, and the Williamson Workshop at Abilene. She has also attended several at WT and at Texas Tech.

"If you get to where you can't go to school, you lose something. You feel more for the student if you are a student yourself."

The greatest joy in teaching is seeing students grow in enjoyment of and experiences with good music, in Miss Clark's opinion, at least. During her tenure in Canyon schools, she has had an opportunity to work with youngsters from their kindergarten days through three years of college.

If she does any more work in music, she would like to teach voice or piano to people who are

(Continued on back page, Sec. 1)

Wheat Referendum Polling Places Given

Voting places for the referendum to be held July 23 on marketing quotas for the 1960 wheat crop have been announced by Doyle G. Thomas, secretary of the County Agricultural Stabilization and Conservation Committee.

Polls will be open from 8 a.m. to 6 p. m.

Farmers who are eligible to vote are all those who in 1960 will have more than 15 acres of wheat for harvest, except those who are participating in the 1959 feed wheat program. Under the feed wheat program, farmers may arrange with the county office to grow up to 30 acres of wheat for use only on the farm where grown without being subject to marketing quota penalties.

Wives of eligible voters will also have voting priviledges.

If at least two-thirds of the growers who vote approve the quotas, they will remain in effect for 1960 crop wheat and price supports of at least 75 per cent of parity will be available to farmers who comply with allotments.

Growers who exceed the allotment or 15 acre—whichever is larger—will be subject to a marketing penalty of 45 per cent of the wheat parity price on their "excess" wheat.

If more than one-third of the voters oppose the quotas, penalties and quotas will not be in effect for the 1960 wheat chop. Acreage allotment will remain in effect as a condition of eligibility for price support at 50 per cent of parity.

Either Thomas or John Brazzil, county agent, may be contacted for further information.

Election boxes will be at the following locations:

Community	Voting place
Canyon,	ASC office
Sunny Hill-Fairview, Fairview Community	Building
Jowell,	Jowell Community Building
Umbarger,	School auditorium
Highland,	Roy Lamb home
Trigg-Zita	Haney Elevator
Stone	Harold Erwin home

Publication Date Set for Hill Book

Publication date has been set as Sept. 26 for "More Than Brick and Mortar," the history of West Texas State Collgee written by Dr. J. A. Hill, president emeritus.

The book, which is being published by Russell Stationery Co. of Amarillo under the sponsorship of the college Ex-Students Association, recalls the founding of the college through its establishment as a state-supported four-year college to its current status.

Dr. Hill, president of WT for 30 years, has also written "One Man's Faith," "My Country and Yours," and "The Panhandle-Plains Historical Society and Its Museum."

Pre-publication price will be $5.95, but after publication date the cost will be $7.50.

All-Stars Picked For Little League

The roster of the All-Star Team of the Little League was selected during the meeting of managers last night. The first game will be at Borger at five o'clock Friday, July 24, when the Canyon team will meet the Dumas team. Winner of that game will play Borger on Saturday.

Selected were Jim Cabe, Tom Lair, Bill Long, George Cox, Jodie Sheets, Tommy Higgins, Richard Merchant, Alex Martinez, Bruce Winn, Alex deSchweinitz, Dennis Haley, Jim Callarman, James Jennings and Don Gough. Alternates will be Ronnie Sweet, Don Howard, Clifford Sherrod and Lonnie Neil.

Only boys eleven years of age and older are eligible to play on the All-Stars.

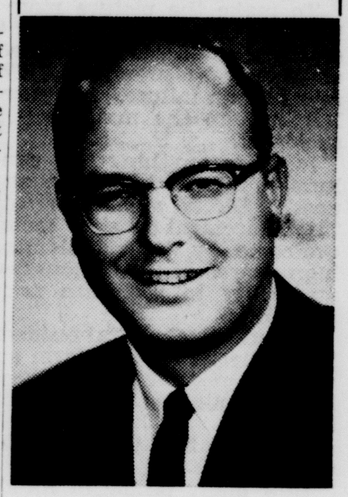
Teachers Attend Curriculum Meet

Five teachers from the Canyon Public Schools were selected to attend the curriculum workshop, sponsored by the Texas Education Agency, which is meeting in Austin this week.

Mrs. Cecil Simms and Mrs. T. E. Beard of the high school, Mrs. Irene Ball of the junior high school, and Mrs. Alma Perkins and Mrs. Flora Phillips of the elementary school are attending the language arts section of the curriculum workshop.

They will return to Canyon to serve as consultants along with Miss Dorothy Davidson of the Texas Education Agency when the schools hold the in-service training here just before school begins. Miss Davidson will be co-ordinator of the language arts on the junior high school and high school levels.

Instructor



PAT SULLIVAN

Former Principal Named to Faculty

A former Hereford principal has been appointed an instructor in education at West Texas State College for the 1959-60 session, President James P. Cornette has announced.

He is Pat Sullivan, who was a teacher, assistant principal, and principal in the Hereford schools for nine and a half years. He has been a teacher of English in the high school and an instructor in the adult school of Fresno, Calif., for the past three and a half years.

Sullivan, who is married and has two children, earned his B.A. and M.Ed. degrees at Texas Tech. He taught at Amherst before going to Hereford. Sullivan was a consultant for a seminar in administrative problems last summer at Hardin-Simmons University.

Walsh Stricken At Las Vegas

Andy Walsh, former mayor of Canyon, was stricken with a cerebral hemorrhage near Las Vegas, Nevada, Monday while he and Mrs. Walsh were returning home from a month's vacation in California where they had been visiting relatives.

He was taken to Southern Memorial Hospital in Las Vegas where he was reported in critical condition as of Wednesday morning.

Dr. and Mrs. Andy Walsh, Jr. and children of Levelland flew to Las Vegas Monday to be at his bedside.

Two Visiting Profs To Address Summer Institute at West Texas

Two visiting professors will speak Monday to area high school teachers of science and mathematics participating in the National Science Foundation Summer Institute at West Texas State College.

They are Dr. Maurice Dreyfus, professor of physics at the Lycee Voltaire in Paris, France, and Dr. A. H. Bailey, professor of mathematics at Georgia Institute of Technology (Georgia Tech).

Dr. Dreyfus will address the institute's two physics sections on Monday and Tuesday, and Dr. Bailey will talk to the mathematics section Monday, Tuesday and Wednesday. Dr. Bailey is a visiting professor sponsored by the National Science Foundation, and Dr. Dreyfus is sponsored by a foreign visiting professors program of Temple University in Philadelphia.

Dr. Dreyfus will speak on such topics as radioactivity, secondary school physics and thermodynamics. Dr. Bailey will be a consultant on the teaching of geometry in public schools and will discuss the recommendations of a school mathematics study group sponsored by Yale University.

Dr. Bailey did his work in synthetic projective geometry at Ohio State University and has written extensively on point set theory and topology. He is recognized as one of the nation's top authorities in the field of geometry.

Dr. Dreyfus received degrees in physics and chemistry at the University of Strasbourg and has been senior professor of physics and chemistry at Lycee Voltaire since 1949.

He was formerly professor at Lycee Amiens and taught physics to medical students of the School of Higher Medicine of Amiens. He lectured on the French Radio Network for 20 years. He was a Fulbright Scholar during 1953 at Massachusetts Institute of Technology and participated in the 1953 Westinghouse Summer Institute for high school teachers.

Safety Makes Sense

The week of July 19-25 has been proclaimed Farm Safety Week nationally by President Eisenhower and in Texas by Governor Price Daniel. Farm Safety Week is a good opportunity for rural residents to take a few lessons in safety and then practice them the year 'round.

In one year's time nearly 100,000 serious farm accidents occurred in Texas alone—costing approximately $6,500,000 in medical bills and causing nearly two million days of work time lost. Figuring labor at $4 a day, this would cost $8,000,000 due to man hours lost. These figures are the outcome of a farm accident survey conducted in 1957 by the Texas Future Farmers. This is a tremendous price to pay for 100,000 acts of carelessness, not to mention the lives lost, permanently maimed bodies, pain, suffering and grief to victims and their loved ones.

To make the picture more grim, the National Safety Council says that many of these accidents are someone's fault and could be prevented. The Council says human failure, ignorance and carelessness are the main causes of these accidents.

Is there anything you can do about human failure, ignorance and carelessness? Safety specialists say there is. These accident-causing factors can be overcome by individuals developing a high degree of safety consciousness and an ability to recognize accident-prone situations.

As individuals, rural residents can help in the battle against farm accidents by making regular inspections of their homes, buildings, fields, machinery and equipment. A little repair and extra care is about all it takes to bring safety to the farm.

How many people in Randall County do you know who have lost a finger or hand or even worse an arm or leg due to some careless act? Can you afford to be laid up in the hospital with a mangled arm or leg during the months of July, August and September? Can you get someone for $4 a day to do the work you are doing on your farm? Maybe you are thinking, "That is all well and good, but none of these things will happen to me." It can happen to you!

The theme of this year's Farm Safety Week is "Safety Makes Sense." Safety does make sense. It can save your life!

Something To Remember

In mid-June, a ceremony was held near the city of Fresno, Calif. The occasion was the dedication of an $80 million hydroelectric project — financed, built, and now operated by a heavily-taxed, publicly regulated electric company.

The president of that company took the occasion to say something that applies to all enterprise in this country, big or little. In his words: "The foundation of our American economy is its business system. The invested capital of millions of Americans in productive enterprise builds the plants and provides the tools; these in turn produce the goods and at the same time provide the employment and consumer income for their distribution.

"Every home owner, every property owner of any kind, every person with a savings account or a life insurance policy is a capitalist. The word has been maligned by socialists, communists and others, but none of them has been able to alter the simple truth about capitalism. Its values are the strength of our way of life and its benefits are shared by all the people. No detractor has offered a better alternative to free men.

"It is difficult to understand why some people who thrive in the blessings of our way of life would destroy it. Some knowingly and some unwittingly attack it, with the very basic electric utility industry as one of their prime targets. It should be obvious that destruction of any basic part of a structure weakens the whole and can only lead to its disintegration."

That last sentence should be memorized by people, including public officials and business men, who pay lip service to free enterprise because of selfishness or blindness think a "little socialism," as in power production, is a good thing. If it is proper and right in principle to socialize the electric industry, it is just as proper and as right in principle to socialize any other industry in this country.

I GIVE YOU TEXAS

By BOYCE HOUSE

If Alaska is the state that's fartherest north, why Texas is the state that's fartherest south. (The tip of Texas is the most southerly point on the mainland of the United States.)

Some of Alaska's mountains may be taller — mind you, I said, "may" —but Texas mountains are closer to the stars. This is because the air above them is so clear. That's why the finest view of the heavens in all the world is through the observatory on top of Mt. Locke in the Davis Mountains.

I knew two brothers. One was straight-laced and the other was a rollicking, happy-go-lucky sort—in fact, he liked to "tread the primrose path," as the poet puts it. This brother had a heart attack and his upright brother said, "I warned you that your drinking and carrying-on would have to be paid for." The other replied, "Thunder! I've lived a dozen lives."

"Space-men," junior, are nothing new.

I have known quite a few; in fact, I was one myself. When I was editor of the Banner in Piggott, Ark., I also wrote news for the Memphis Commercial Appeal and the Arkansas Gazette. I kept a "string"—that is, I clipped out the items as they were published and pastel them and sent the string at the end of the month as I was paid space rates. So that made me a space-man, didn't it?

The high-brow magazines print few productions each month that are supposed to be poetry. One such contained these lines:

"Silence spoke with your voice
As you slept."

This, as near as I can figure out, means—if it means anything—that the fellow snored.

James P. Eagle, who served as governor of Arkansas, brought his bride from Kentucky and he named their residence, "the Eyrie" ("the Eagles' home".

Some unknown authority on oratory gave this advice, "Begin low and go slow; rise higher and make a fire; then grow warm and raise a storm."

TIP TO MOTORISTS

You may have the right-of-way in traffic, but there's little satisfaction in dying to prove it.

Amsterdam is a city of about 90 islands connected by some 300 bridges.

It's just as difficult for some people to keep a promise as it is for others to save money.

A man is judged by the company he keeps — and for that reason some don't trust themselves alone.

Some people seem to think they have to wear a stony face so they can be considered a pillar in their church.

BITS OUT OF LIFE

Some down-to-earth person has aptly remarked: "When the grass is greener on the other side of the fence, it may be that they take better care of it over there."

Rather than pay as they go some people would decide to stay.

INSINCERITY

Parents find it hard to believe all the things they expect their children to believe.

HEMMED IN

Once a man gets backed up against the wall he has a hard time getting around it.

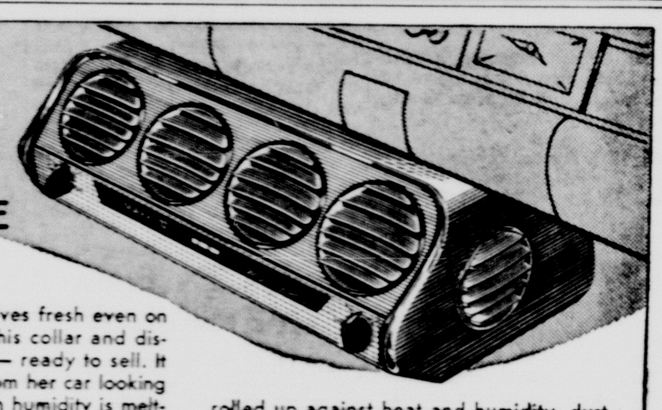
WHAT DOES THIS PICTURE MEAN?



It means a salesman arrives fresh even on the hottest day — with his collar and disposition both unruffled — ready to sell. It means a woman steps from her car looking crisp and cool even when humidity is melting others. It means a mid-summer family drive is fun — free from buffeting wind and wilting heat. It means the windows are rolled up against heat and humidity, dust and noise, smog and pollen. It means so much to summer driving comfort that you can never really appreciate the difference till you try it. May we give you a demonstration ride? Today?

What Our Neighbors Say . . .

Scissor Snippings

Jimmie Gillentine in The Hereford Brand: (Editor's note: Mr. Gillentine along with some 30 other newspaper people toured Mexico recently and an account of the trip was recalled by Gillentine. He described his impressions of the Mexican people and the treatment received in Mexico. Part of his report follows).

Strangely enough, the only poor treatment we received was at the hands of Robert E. Hill, Ambassador from the U.S.A. Mr. Hill received our group of some 30 newspaper folks at his office and invited us to attend the big Fourth of July party at the Embassy. He even insisted, and twice issued the invitation:

"Be sure and come to the embassy as my guests if you are in town on Saturday evening."

At considerable trouble and some expense, we showed up in three taxis, 8 p. m. on the dot at the embassy, only to be informed that we could not be admitted without a written invitation. We mentioned Mr. Hill's invitation, but were firmly and none too politely evicted from the patio entrance.

In view of what we had read about American Embassys all over the world being open to American citizens on July 4th, we were naturally a bit disappointed and no little peeved over the incident.

I read the book, "The Ugly American," and took it with a grain of salt but, after our treatment, I can certainly agree with the authors of the book. No wonder, with representatives of this sort in our embassys, that greater and greater amounts of German, Italian, Swiss and Japanese merchandise are crowding the U. S. manufacturer out of the picture in Mexico and South America.

Mr. Hill needs to spend a while in Texas. Here, we may not invite people we do not want but, if we do invite them, we certainly will receive them — come what may. Anyway, we decided it sort of set a new record. To say the least, it was the nicest place out of which we have been thrown . . . as yet.

☆ ☆ ☆

Harold Hudson in the Ochiltree County Herald: There's nothing like a trip to change your perspective and give you a fresh outlook on life. However, we are ready to stay put for a while. And the best advice we ever got was from the fellow who said when preparing to travel to New York, take half as many clothes and twice as much money. This is the way we found it.

Stockyards Act Extends Coverage

Changes in the Packers and Stockyards Act extends protection in the market place to a greater number of livestock producers, said A. B. Wooten, extension economist.

He points out that the Act sets up rules for fair business practices which provide protection for the farmer and consumer, as well as for the livestock and poultry marketing and meat-packing industry. The new amendment makes the protection more far-reaching than ever before.

★

Formerly only livestock markets engaging in interstate commerce and covering 20,000 or more square feet came under the jurisdiction of the Act. Now livestock markets of all sizes, as well as dealers and other agencies handling livestock, engaged in interstate commerce must observe the rules, said Wooten.

Livestock auctions continue to be an important outlet for livestock in Texas. "Posting" them will mean that the operators must meet several conditions. An operator must register with the USDA within 30 days after his market is posted, and also file a bond based on the volume of business transacted during the past 12 months and a schedule of rates and charges for all services rendered by the market. The Act requries that the rates be just, reasonable and non-discriminatory, he said.

★

There are other provisions, said Wooten. The auction operator may not finance livestock dealers. He may not guarantee prices to be received for livestock, but may protect shipper's interests if reasonable bids are not received at time of sale.

He may not permit auctioneers, weighers, starters, or clerks to buy out of consignment for any purpose. He should solicit buyers to attend sales and should see that bidding by buyers is open and competitive. The operator should represent the best interests of shippers to the markets at all times, sell all consigned livestock without misrepresenting quality, and provide equal treatment to all shippers, regardless of size or regularity of shipments.

He must also install, maintain and operate scales to assure correct weights, keep complete and accurate records, and maintain a sound financial status at all times, the economist added.

New Drive-Inn Parking Area

The Village Drive-Inn has recently finished installing new equipment for their parking area. A speaker system has been installed along with new steel canopies. The parking area was also redone with new paving.

SOIL CONSERVATION DISTRICT NEWS

To obtain efficient use of irrigation water, the supervisors of the Randall-Potter Soil Conservation District recommend that a conservation irrigation system be used. Personnel of the Soil Conservation Service are available in helping design these systems.

A conservation irrigation system should include methods that (1) maintain or improve soil productivity; (2) holds erosion damage to a minimum; (3) promotes efficient use of rainfall and irrigation water; (4) disposes of excess water in an orderly manner to prevent erosion.

The length of runs in irrigation water management depends upon rate and time water is available, type of crop grown, type of soil, rate water will enter soil, amount of water held by the soil, topography of the land. Where row crops are to be used the maximum grade in the direction of irrigation should not be more than three inches per hundred feet.

Water control is difficult to control on steep slopes, and the land should be leveled before irrigating. Every irrigation system should provide for safe disposal of surplus water. Disposal systems can be used for alfalfa or similar crops.

Treatment for irrigated land should include plans for (1) legumes, grasses, fertilized high residue crop or fertilized aftermath of high residue crop for soil improvement at least one year in three; (2) chopping plant residue into the surface to form a mulch; (3) maintaining soil surface as rough as feasible to increase water intake and temporary water storage; and (4) use of conservation irrigation system.

More than 9,000 farmers were recently asked: "Do you believe that the soil conservation practices applied on your farm have been effective in controlling erosion?" Ninety-nine per cent answered "Yes."

319 Fishermen Caught Without $2.15 License

Fishing without a license is still the top offense in enforcement of game and fish laws, according to the director of law enforcement of the Game and Fish Commission. In June, 319 persons were arrested for fishing without licenses.

Other violations, however, took a drop. There were 22 persons arrested for trespassing and 15 for hunting at night. Otherwise, there were a few violations for killing game out of season. Arrests for the month totaled 440 persons who paid fines and court costs totaling $7370. A fishing license costs $2.15.

Shower Honors Krista White

On Tuesday evening, July 7 from 7:30 until 9 o'clock, Little Miss Krista Alicen White, infant daughter of Mr. and Mrs. James Murphy White, was honored with a baby shower in the home of Mrs. W. J. Wooten, Jr. The honoree, dressed in a very pale green dress, was placed in her pale yellow bassinett in the living room.

Centered with a bouquet of pale yellow snapdradons and white daises interlaced with baby rattlers the tea table was laid with a white organdy cloth appliqued with linen. Punch was served by Mrs. Eddie Conner and Mrs. Harold Erwin, aunts of the honoree. Little white cakes topped with pink booties, nuts and punch were served to the guests.

Mrs. Joe Dale White, aunt of the honoree, registered the guests.

Hostesses were Mrs. Arley Barnett of Amarillo, Mrs. Bob Bellah, Mrs. W. B. Davis, Jr., Mrs. Manly Bryan, Mrs. J. D. Byrd, Mrs. A. L. Crossland, Mrs. T. H. Lair, Mrs. W. W. Sternenberg and Mrs. Wooten.

Shower Honors Miss Coffee

Florence Marie Coffee, bride-elect of Barry John Gould was honored with a miscellaneous shower Friday evening from 7 until 9 in the home of Mrs. J. J. Walker.

Greeting the guests were the honoree, her mother, Mrs. Herschel Coffee and Mrs. Walker. Miss Coffee's corsage was salmon gladioli.

Laid with an imported cutwork linen cloth, the tea table was centered with an arrangement of white stock and champagne carnations with miniature gold lace fans and chenille hearts tucked in the ribbon at the base of the fans. Mrs. A. K. Knott presided at the punch service the first hour and Mrs. John A. Gillis poured the second hour.

Hostesses for the occasion were Mrs. Knott, Mrs. Gillis, Mrs. Mitchell Jones, Mrs. Glenn Dowlen, Mrs. D. K. McGehee, Miss Edna Graham, Mrs. F. A. Pierce, Mrs. Elmer Oberst, Mrs. George Grogan, Mrs. H. G. Persons and Mrs. Walker. The hostess gift to the honoree was a large silver tray.

Approximately sixty guests were registered at the guest book by Mrs. Duane Howard and Mrs. Bob Black during the receiving hours.

Theora Cosby Feted With Shower

Theora Cosby, bride-elect of Jerry Downing, was honored with a personal shower Friday night in the Lawrence Hunnicutt home.

Laid with a blue linen cloth, the tea table featured a blue and white umbrella in a white styrafoam base surrounded with ruffled ribbon.

Theora was written in copper wiring in front of the base.

Araleene Bagley presided at the punch bowl and Barbara Bagley registered the guests.

Hostesses were Jackie Barnard, Araleene Bagley, Barbara Bagley, Martha Harding, Mrs. Joe Britt and Mrs. Hunnicutt.

Fairview Singing Will Be Sunday

There will be singing all day with lunch on the grounds at Fairview Sunday. The public is invited to spend the day in the community.

HAGARDS ATTEND
DALLAS FUNERAL

Dr. and Mrs. Luther Hagard Jr. and family attended the funeral of his grandmother, Mrs. J. M. Hagard in Dallas recently. Mrs. Hagard, 93, was buried at Midlothian, Texas July 3.

Contest Winner

Louis Dean Camp, center, receives a $400 check from Noah Hancock, right, as Benny Cooper looks on. Camp, assistant buyer for Cooper's , won the prize in Simoniz Company's "Be A Sport" contest.

Robert O'Donald Completes Course

Lt. Robert E. O'Donald, son of Rusty O'Donald of Canyon, has completed the company grade officer course at the Army Transportation School at Fort Eustis, Va.

Lt. O'Donald entered the Army in January, 1954.

The 26-year-old lieutenant is a 1950 graduate of Canyon High School. He attended West Texas State College.

Harry Lisle Wins In Lubbock Meet

Harry Lisle racked up two first places to lead Canyon entries in the Junior Olymic Track Meet at Lubbock last Friday and Saturday.

Lisle won first in the 50-yard dash with a 6.0 time, and first in the broad jump with a leap of 17 feet 10 inches. He also took third in the 100-yard dash with a time of 11.3.

In a different age bracket, Jerry Richardson took third in broad jump with a 20'4½" leap and fifth in the 100-yard dash with a 10.7 time.

Chuck Nester, with a 24.0 time, took fourth in the 220-yard dash. John Wear failed to place in broad jump or high jump.

The meet drew 300 entries from 20 towns.

This is part of a summer program being conducted in Canyon, with 35 boys working out twice a week. Practice sessions for weight lifting, basketball, volleyball and track are held at 8 p.m. Monday and Thursday.

All Fostoria Dinnerware ½ price at Thompson's.

Two Attending Brownwood Meet

Bill Cornette and Velda Jean Oberst, both of Canyon, are among 30 high school students attending a 4-week training program in science at Howard Payne College at Brownwood.

The training program—an intensive study covering the areas of physical science, biology and mathematics—is sponsored by the National Science Foundation, which has made a grant of $6,950 to cover expenses of the program. Dr. Leonard R. Daniel, chairman of the HPC division of science, is director.

Cornette is the son of Dr. and Mrs. James P. Cornette and Miss Oberst is the daughter of Mr. and Mrs. Elmer Oberst Jr.

Marriage Licenses

Marriage licenses were issued during the past week to:

Lester Roy Cunningham and Evelyn Marie Schoenenberger July 6.

Frederick David Dillard and Andrea Lee Bales, July 7.

Ralph Clayton Hedrick and Mary Alice Webb, July 8.

Don R. Stripling to Teresia Irene Birkenfeld, July 10.

Richard Allan Steele and Margaret Mary Bath, July 10.

Ray Johnson and Frances Wells, July 10.

Robert Lewis and Leah Carmen Fowler, July 13.

Ora Williams and Jessie Ellen Muehlhausen, July 13.

Stanton King Elliott and Linda Jean Franks, July 13.

Washington Report

EQUAL TIME FOR CANDIDATES

By Representative Walter Rogers
18th Congressional District

A great controversy is brewing in the Congress as to whether or not radio and television stations should be required to afford equal opportunities to all candidates seeking public office to use the facilities of the broadcasting stations. The present law provides as follows:

"Sec. 315 (a) If any licensee shall permit any person who is legally qualified candidate for any public office to use a broadcasting station, he shall afford equal opportunities to all other such candidates for that office in the use of such broadcasting station: Provided, That such license shall have no power of censorship over the material broadcast under the provisions of this section. No obligation is hereby imposed upon any licensee to allow the use of its station by any such candidate.

"(b) The charges made for use of any broadcasting station for any of the purposes set forth in this section shall not exceed the charges made for comparable use of such station for other purposes.

"(c) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section."

The present controversy stemmed from a complaint filed by a man by the name of Lar Daly, who has made several races for public office. In 1959 he was a candidate for nomination for Mayor on both the Republican and Democratic Tickets in the Chicago primaries. His complaint arose from the fact that the Mayor of Chicago, Richard Daley, was portrayed in some television newscasts greeting the President of Argentina, opening the Mother's March of Dimes Drive, and filing his nominating petition for re-election as Mayor of Chicago.

He complained that his Republican opponents had also appeared on news programs. The Federal Communications Commission issued a ruling to the effect that the several broadcasts referred to in the complaint had involved uses of the station's facilities within the meaning of Section 315 of the Communications Act and that Lar Daly was entitled to equal use of the facilities.

The Columbia Broadcasting System requested reconsideration of this holding. The same request was made by the National Broadcasting Company and the Westinghouse Broadcasting Company. Lar Daly, the original complainant, filed answers to these requests for consideration. On May 7, 1959, the Attorney General requested leave to file a petition in support of the petitions of the several broadcasting companies, and subsequently filed its memorandum or brief on the subject.

The Federal Communications Commission considered all of these matters and then reaffirmed its previous ruling that Lar Daly was entitled to equal time on the news programs. This caused a great furor, and a number of bills have been introduced in the Congress to change the present law, in view of the ruling of the FCC.

In fact, the President of the United States, in a news conference, was quoted as saying, in effect, that the decision was "ridiculous," and demanding that his Attorney General try to get the law changed.

This created additional furor, because it is the province of the Legislative Branch of the government to change the law and not the jurisdiction of the President or the Attorney General. There were charges that the President and the Attorney General were attempting to influence the FCC and force it to reverse its previous ruling. These charges brought counter-charges that the Congress was trying to influence the FCC rather than the President.

All of these discussions, arguments, furors and fusses were combined together and the entire matter is now in the lap of the Interstate and Foreign Commerce Committee of the House of Representatives. We are presently holding hearings on the subject, and they are most interesting. We invited the Attorney General to appear before the Subcommittee, but he chose to send a representative. I undertook to find out from this representative what the President was driving at when he used the term, "ridiculous."

The Attorney General's representative advised that the Attorney General had not used such term, the President had not used the term, but that it had been used by Mr. Hagerty, the Press Secretary of the President, speaking on behalf of the President.

He advised that the Attorney General simply took the position the decision was not founded on law, although the Attorney General dil say in his memorandum the following: "Fair, yet comprehensive news coverage can best be assured, **not** by applying Section 315 as the Commission has done in the Lar Daly case, but by a common sense application of the Communications Act, public interest 'standard,' which requires television and radio stations to make a fair presentation of public issues."

I was trying to determine whether the President, Mr. Hagerty and Attorney General Rogers thought the Federal Communications Commission was ridiculous and had no common sense, or whether they thought the law, which I quoted above, was ridiculous and not according to common sense.

This is very important, because if the President, his Press Secretary and Attorney General Rogers think the FCC is ridiculous and without common sense, it would certainly do Congress no good to change the law.

But if, on the other hand, these three fine gentlemen feel that the law as written is without common sense and ridiculous, then there may be some merit to the attempt to try to get Congress to change the present law. Actually, the terms, "ridiculous" and "without common sense" are, in a degree, synonomous to me. Certainly an Act that is "ridiculous" is without common sense. Also, an Act "without common sense" should be ridiculous. It might be rare ridiculous, medium ridiculous or well-done ridiculous.

In any event, after all this controversy, chaos and trouble is ground up in the mill, I feel sure proper steps will be taken by the Congress during this session to insure the people of this country the opportunity to have full and complete information as regards all candidates for public office under the general principles of democracy, without surrendering to anyone a power to misuse the spectrum which belongs to the public.

Wayside News

Rev. Walter Hadley of Happy filled the pulpit Sunday morning and evening. He is the Methodist pastor at Happy and has agreed to preach at Wayside twice each month, the first and third Sundays at 9:30 a. m. and 5:30 p. m.

Mrs. Etta Gillham and sister from Greenville visited part of this week with her son, Lois, and family.

Brotherhood met Tuesday at the Wayside Church. It was a district meeting with about 75 men present.

Mr. and Mrs. W. R. Franklin were Canyon shoppers Tuesday.

Mr. and Mrs. Artie Brawner, Carolyn and Larry of Amarillo, were guests July 5 in the Willie Modisette home. Marian and Fay Modisette returned home with them for a visit.

Mrs. Elvin Scroggins was at Lubbock visiting a friend in the hospital Tuesday and Wednesday.

Jimmy Adams and Loveta Brown of Memphis were married July 4 in Plainview. They are at home at the Amarillo Air Force Base, where Jimmy is stationed.

Mr. and Mrs. John Barnes had word that their son, Buck, was sick at Midland and they have gone to be with him.

Mr. and Mrs. Cortez McNeill and boys have at their farm the buffalo that was at West Texas State College and are enjoying caring for him.

Camille McNeill, recording secretary for the Area Future Homemakers of America, will attend the national FHA meeting in Chicago and will stay in the Conrad Hilton Hotel while there. Camille is the daughter of Mrs. Wayne McNeill, who lives near Wayside.

Mrs. Allie McNeill and granddaughter, Countess McNeill, are back from a trip to Arab, Ala., where they visited in the John McNeill home.

Mrs. Bertha Mahler and Mrs. Joyce Lane and Joy and Bertha's sister, Evelyn and daughter, are visiting relatives in Arizona.

RAMBLING AROUND

DOYLE G. THOMAS

This has been an unusual harvest for this area. This column is being written on Thursday, July 9, and harvest is still not complete in the county. On June 25, we made a trip to central Kansas and all wheat except for a very few scattered fields north of the Canadian River had been harvested. This included the central part of Kansas. Of course we have received considerably more rain during harvest time than they received north of the Canadian River.

Another unusual thing about the harvest is the fact that most all wheat in this county is selling on the open market and a major part of the wheat north of us is going into the loan. Through July 8, we had written 17 loans and on the same date last yaer we had written 475.

★

There is probably two reasons for the wheat going in the loan north of us anl for it selling here. Number I would be that elevators in this area are just paying more, about $1.75 per bushel. The other is because the protein is considably higher north of us and this earns a premium if it goes into the loan.

★

At any rate we are glad to see the farmers getting more than the loan rate.

★

In spite of the drought, hail, weeds, and excessive rain, this will not be classed as a bad wheat year overall, for the county. Better than 100,000 acres were harvested and yields, especially on irrigated wheat, were surprising in most cases.

★

Farmers using the loan program in the future will be happy to hear of one change made in our regulations. During past programs tenants have had to secure lien waivers from their landlords before loans could be approved. This was true even though the landlord's share of the crop had been satisfied. The change does away with the necessity for getting these lien waivers provided the landlord's share has been satisfied. This provision eliminates one of the major headaches in securing a loan.

★

Side Views: . . . Earl Burtz making application for the stubble mulch practice. He stated he used chisels and knives and that this practice did a world of good . . . Roy Lamb telling us that insects destroyed a big part of the cotton in the Highland community although he did save his acreage by spraying . . . John Plank cultivating a pretty crop of grain sorghum . . . Everett Culp windrowing part of his wheat acreage to save it from the weeds . . . Bradley Burrus, Everett Culp, Jack Loudder, M. W. Hicks, and Tommy Triplett, Community ASC Committee Chairmen, meeting with the County Committee to make plans for holding the wheat referendum on July 23.

Dr. Johnson Returns From Alaskan Jaunt

Dr. Lee Johnson returned home a week ago Thursday from a three weeks flying trip to Alaska with his son, Dr. Samuel B. Johnson of Jackson, Miss. They were a part of an armada of 50 planes manned by "The Flying Physicians," of which Dr. Sam Johnson is a member.

The group flew over the southern two-thirds of the 49th state, and later made a trip into the Arctic Circle.

Ocoee, sister of Dr. Sam Johnson, returned home with her brother for a visit. She was joined Friday by her parents and Ethel. The Lee Johnsons are seeing their new granddaughter, Alice Boswell, for the first time. The Sam Johnsons have two other children.

SELF-UNLOADING
JOHN DEERE 110 Chuck Wagon Mixer-Feeder

Here's "Special Delivery" Feeding at "Fourth Class" Costs!

Here's a versatile, self-unloading forage wagon that'll save time . . . take the hard work out of your feeding operations—and save money, too. The John Deere 110 *Chuck Wagon* Mixer-Feeder mixes supplements on the go, and delivers feeds into bunks through a side-delivery conveyor. And, the *Chuck Wagon* can be mounted on wagon running gear or truck bed, to fit your feeding setup.

The 110 handles many jobs. It's self-unloading from the rear as well as the side—you can unload material into blowers, elevators, and trench and bunker silos in a jiffy. A handy, five-speed unloading-control lever allows you to instantly match unloading speed to any job.

The big, rugged *Chuck Wagon* will bring you years of profitable service at low cost. See us soon for full details.

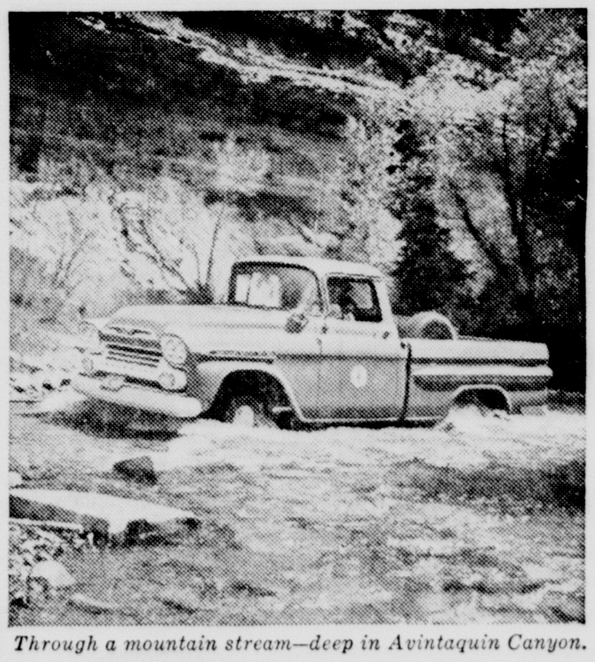
Up a steep mud-choked wash—Positraction pays off!



Through a mountain stream—deep in Avintaquin Canyon.

NO MOUNTAIN CAT, MISTER...

That's a Chevy with Positraction!

That 3134 Fleetside has the sure-footed ways of a big western bobcat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where piñon won't even grow. But that's all routine for this Chevy, equipped with Positraction* rear axle. It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the district officer who drives it would bet his badge the tie rods won't even need replacing!

Out in that wild, climbing Utah country, Chevy's suspension and frame and brakes, its Positraction rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevrolet's advanced engineering and design ideas pay off—in spades—when the going gets especially mean and dirty.

Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped ½-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in getting in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of.

*Optional at extra cost

No job's too tough for a Chevrolet truck! CHEVROLET

Ada V. Clark

Continued from Page 1

interested in music as a hobby.

However, for now, she plans to enjoy her hobbies—enameling copper, block printing, working with mosaic tiles and doing needlepoint.

She also enjoys watching television, listening to the radio and reading about the personalities as people. Miss Clark likes programs in which real people take part rather than ones with made-up plots. She likes popular music shows if the music is well done and not slicked over.

"My family claimed I could sing before I could talk. They would sing to me and I would sing it back. But if they just talked to me, I wouldn't answer them," she said.

Her family enjoyed good music and books, and she developed a taste for both. Now that she is retiring, one of the things she hopes to do is read all she wants to.

3 Canyon Boys To Make Trip

Three Canyon boys will be among 22 Boy Scouts and Explorers making a 10-day wilderness canoe trip in Minnesota and Canada. Tim White, Richie Brotherton and Danny Johnson will leave Saturday.

The boys will paddle over 100 miles of lake area in Quetico Provincial Park during their 10-day canoe trip, originating at the Sommers Canoe Base near Ely, Minn.

Nineteen other boys will make the wilderness voyage, operated out of the Boy Scouts Region Ten office in St. Paul, Minn. Traveling by chartered bus, the group will stop at two state parks and two military reservations on the trip to and from the voyage.

Bangs Regulation Hearing Planned

Randall County livestock producers who object to the proposed brucellosis regulations by the Livestock Sanitary Commission of Texas may air their objections at a hearing at 9:30 Monday in the commission's Fort Worth Offices.

Objections to the regulation of brucellosis or "bangs" disease, in cattle will be heard in the commission's offices, 3320 West 7th Street.

This work for control and eradication of brucellosis is a result of recent state legislation requested by livestock groups over the state. These laws make it possible for counties, portions of counties or combinations of counties to work toward certified Bangs Free areas.

Within the next few weeks several educational meetings will be held over the state to explain the new laws and these proposed regulations.

A copy of the proposals is posted on the bulletin board at the county court house.

Giants Topple Cardinals, 12-4

Led by the pitching of Jimmy Killingsworth, the Giants overpowered the cardinals 12-4 in play last night at the Babe Ruth park.

Killingsworth went the distance for the Giants. Albert Keller started for the Cards and Davis Price relieved in the sixth.

The league-leading White Sox defeated the Pirates 15-5 Monday night. Ronnie Reynolds was the winner. Douglas Ward started and Dalton Adams came on in the fifth.

The Pirates were edged out by one run, 16-15, Saturday by the Cardinals. Johnny Sikes went the distance for the winners, and Adams was relieved by Ward in the fourth. Bobby Dorris came on in the sixth for the Pirates.

Harry Lisle and Russell Cook tangled in a pitcher's duel Thursday and Cook came out on the long end as the Giants beat the White Sox 9-8. Both went the distance.

An all-star team, to be picked tonight by the managers, will play in the district tournament at Plainview July 27-29.

The Cardinals will play the White Sox tomorrow night and the Pirates and Giants will close out regluar play Saturday. Make-up games will be played during the rest of the month.

AROUND TOWN

HONESTY BUILT OUR BUSINESS

HONESTY is our guide for the future

From the very beginning it has been our desire to serve our public better. Honest answers to the queries of our customers regarding the foods they came to buy, have instilled in them a confidence hard to find. The word of these loyal customers, passed along to their friends, has brought more and more customers to our stores. *HONESTY built our business.* HONESTY will guide its future.

We do our BEST to please You!

Pleasantview Club Hears Mrs. Hildreth

Mrs. Mona Hildreth gave a demonstration on making new type cafe curtains at the meeting of the Pleasantview Home Demonstration Club in the home of Mrs. Blaine Hufnagle Wednesday afternoon.

During the business session, Mrs. Earl Burtz, Mrs. Ray Welch and Mrs. Hufnagle were appointed members of the nominating committee. Mrs. Minnie Moore was voted an honorary member.

Seven members and two visitors, Mrs. Walter Cranmer and Mrs. Hildreth, were present.

The next meeting will be at 10 a. m. July 22 in the Farm Bureau building. Members are asked to bring a sack lunch. The group will be taking lessons in Dresden painting during the day.

A man's first step is always the most costly—but it's worth the price if it is in the right direction.

Married June 27

MRS. BILLY JOE FARMER

☆ ☆ ☆

Alma Nell Miller, Billy Joe Farmer Are Wed in Kilgore Baptist Church

After a short wedding trip to points in Central Texas, Mr. and Mrs. Billy Jo Farmer will be at home at 300 Thompson Street in Kilgore. They were married June 27 in the First Baptist Church Chapel at Kilgore.

The bride is the former Alma Nell Miller, a niece of Mr. and Mrs. Frank Morgan and Mrs. Ardis Stamper. Her parents are Mr. and Mrs. J. L. Miller of Kilgore, and the bridegroom is the son of Mrs. Joe E. Farmer of Winona and the late Mr. Farmer.

Dr. Howard C. Bennett, pastor, officiated at the double ring ceremony.

Mrs. J. S. Beville, organist, played traditional wedding music. Bridal soloist was Mrs. Lance Shackelford of Amarillo, former college roommate of the bride at West Texas State College, who sang "At Dawning," "Through the Years," and "The Lord's Prayer."

Decorations of the chapel featured two emerald foliage palms, a pair of white wrought iron candelabra with white wedding tapers and greenery, and white satin pew markers. Baskets of ruffled white gladioli, daisy type pom-poms, specimen mums and jade foliage completed the setting.

The bride, given in marriage by her father, wore a gown of nylon tulle over taffeta. The closely fitted bodice featured a V neck and short sleeves, emphasized with wide lace embellished with tiny seed pearls. Her gauntlets were of the same design. Her only jewelry was a single strand of pearls, a gift from the groom. The full skirt had the lace in a panel effect and this, too, was embellished with tiny seed pearls.

She wore a tiara of pearls to which was attached her veil on nylon tulle. The bridal bouquet was in a crescent shape, centered with a white orchid and surrounded by stephanotis and miniature white gladioli, interspersed with white nylon tulle. She wore the traditional "something old, something new something borrowed and blue."

Mrs. Charles R. Burbank of Waco served as matron of honor. Jeannie Kimball of Kilgore was maid of honor, and Joy Harrison of Levelland was bridesmaid.

The attendants wore dresses of green organza over taffeta, styled with criss-cross bodices and full skirts and carried nosegays of white daisies. They wore single strands of pearls, gift of the bride, circlet headpieces of green veiling to match their dresses and mitts of green tulle.

Attending the bridegroom were Bill Landers of Kilgore, best man; Ted Miller, brother of the bride; Jerry Bolling and Charles Farmer of Winona, brother of the bridegroom, groomsmen.

The bride's mother chose a gray organza frock with all-over embroidery in pink and white. Her accessories were pale pink, and her corsage was of pink carnations. The bridegroom's mother chose a blue linen dress with all-over embroidery and trimmed with blue satin around the neckline. Her accessories were of white and she wore a corsage of white carnations.

A reception followed in the dining hall of the church. The bride's table was covered with a full skirt of nylon net over taffeta and decorated with green net bows, which were centered with ribbon rosebuds of green and white. Scallops of green and white ribbons linked the bows, from which fell ribbon streamers.

Green punch was served from a crystal bowl. The centerpiece featured white carnations and summer stock interspersed with lace fern and white and green nylon organza. The tiered cake, in clover-leaf design, was topped with a miniature bride and bridegroom and decorated in white and green.

The register table was covered with a dainty white organdy cloth over green taffeta. A silver table containing rice bags was placed on the table. A bridesmaid's bouquet of daisies decorated the table. Donna Van Winkle of Kilgore presided at the bride's book.

Mrs. Frank Morgan of Canyon and Mrs. S. S. Bradshaw of Kilgore poured punch. Mrs. Harry O'Kelly of Longview and Mrs. James McCullough of Kilgore served the cake. Others in the house party were Mrs. Al Grush, Mrs. John Adamson, Martha Hyatt, Patricia Duncan, Kate Bennett, Betty S. Little, Linda Mobley and Susan Bennett.

For the wedding trip, the bride chose a two-piece white faille dress styled on princess lines and trimmed with blue satin. She wore blue accessories and a white orchid corsage.

The bride is a graduate of Kilgore High School and West Texas State College, where she received her degree in business education. At WT, she was a member of Mary E. Hudspeth Honor Society, Phi Gamma Nu Sorority, and the executive council of the Baptist Student Union. The bridegroom is a graduate of Gladewater High School and Kilgore College, where he was a member of the Barbarians.

Attending from Canyon were Mrs. Stamper and Mr. and Mrs. Morgan.

Juniper Inspects ROTC at Fort Hood

Dr. Walter H. Juniper, dean of the college at West Texas State, ended a two-day inspection tour of training facilities at the Fort Hood Reserve Officers' Training Corps summer camp Saturday.

Dean Juniper, accompanied by Mrs. Juniper and their daughter, Margaret, was one of 28 college officials at Fort Hood from schools represented at this year's camp.

The educators were guests at a dinner and reception Thursday night at the Fort Hood Officers' open mess. Friday morning they heard an address by Maj. Gen. Earle G. Wheeler, Fort Hood commander, and a briefing on camp organization by Col. D. A. McPherson, deputy ROTC camp commander.

The rest of the day's activities included visits to a technique of fire range, tactics areas, mortar, machine gun and recoilless rifle ranges. They also received a helicopter ride and participated in some of the actual training the cadets receive.

Friday night the school authorities dined in the company mess halls with cadets from their respective schools.

Saturday morning they had a tank ride on some of the latest Army tanks and then wound up their visit by viewing the 1378-man brigade in a review and parade ceremony.

CANYON DRUG

OL5-2116 North Side Square

Getting ready for a trip, at our house, is usually pretty simple. A few days before the take-off (if we think of it, and have the time) we make a quick inventory of suits and dresses. If something absolutely has to be cleaned we run by the tailor shop. Otherwise, we throw things into bags just before train or plane tmie, usually forgetting a hairbrush, toothpaste, or black shoes. But once en route, we develop a make-it-do philosophy that nothing disturbs.

This summer it's different. With tha trare commodity, time, on our hands, we're doing it up right. For days now we've been shortening skirts, matching gloves to purses, getting shoes shinel, luggage repaired. Our hair has a new permanent, and on the day of departure, we'll get shampooed, manicured and what not. This is going to be the real thing

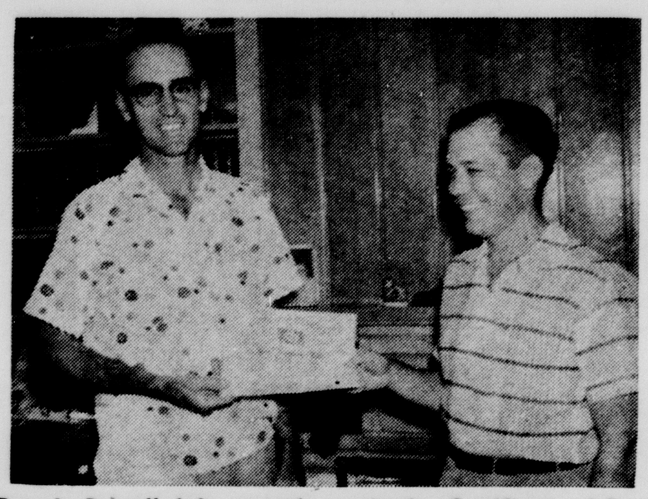
The spouse, after 30 years, has come to accept the old order and maybe even like it. He eyes all this preparation with a mixture of bewilderment and disgust: "Looks like gettin' ready is more important than the trip," he grumbles as he comes in from work to find us still bent over a hot hemline with scissors and needle.

From the feminine viewpoint, however, his own preparations are just as foolish. Hours of back-breaking work have gone into planting and weeding that no one but the birds will be here to enjoy. His yard is polished as though for a party. "The day before we leave," he confides, "I'll give the whole place a deep watering." Then he sighs, "It'll sure run down while we're gone!"

Whether it's geraniums or girdles that cause the excitement, vacations are great to get ready for. With time to stew pleasantly over a departure, the gettin' ready is indeed about as much fun as the trip.

From out of a shady past many a bright future has been created.

Receives Award



Ross L. Russell, left, recently received a Certificate of Recognition for his work during the 1958 Christmas rush at the post office. Lee Roy Moreland is at right.

☆ ☆ ☆

Russell Given PO Certificate

Ross L. Russell has been awarded a Certificate of Recognition by Postmaster General Arthur E. Summerfield.

Russell received the certificate for his performance during the 1958 Christmas rush. Despite a broken wrist, Russell returned to the post office after taking a minimum of sick leave and aided in handling the Christmas mail.

Post office staff members and their families met at the Marion Higdon home recently to celebrate the occasion.

Farm Safety Week Slated July 19-25

National Farm Safety Week has been designated for July 19-25, says the Texas Farm and Ranch Safety Council, with the emphasis this year on "Safety Makes Sense." Farm families who continually include safety in their plans and work are aware that "safety that saves makes sense." Safe farming and living saves time, money, sound bodies, carefree hours and even lives, the Council says.

★

Farm work accidents claim about 3,500 lives each year, more than any other major industry. About 12,000 farm residents lose their lives each year in all types of accidents, and another million or more suffer accidental injuries. The accompanying disabilities, miseries and financial troubles emphasize that "Safety Makes Sense," says the Council.

Human failure, not motor vehicles, farm implements and animals, is the basic cause of accidents. In nearly every case, human failure to recognize and correct a hazard is the real cause of accidental death and injury. Human failures include: hurry, lack of common sense, improper equipment, improper care and use of equipment, procrastination, false confidence, and lack of knowledge, states the Council.

★

The objective of National Farm Safety Week is to establish safety in farm living. Farm safety activities aim at developing the attitudes, customs and environment for safe living for every member of the family every day in the year. In the vital contest of education vs. accidents, the score should be Safety Education 100 percent, Accidents zero, the Council states.

Obviously most, if not all, farm accidents can be prevented. It is a fact that in states where good safety committees with well planned, active programs are in existence, accident rates have been reduced. National Farm Safety Week has been an important factor in bringing about this reduction.
